

My Ocean Science Journal

Grades 6 - 8

Weekly Writing Prompt #9

Ocean Literacy Principle #7

The ocean is largely unexplored.

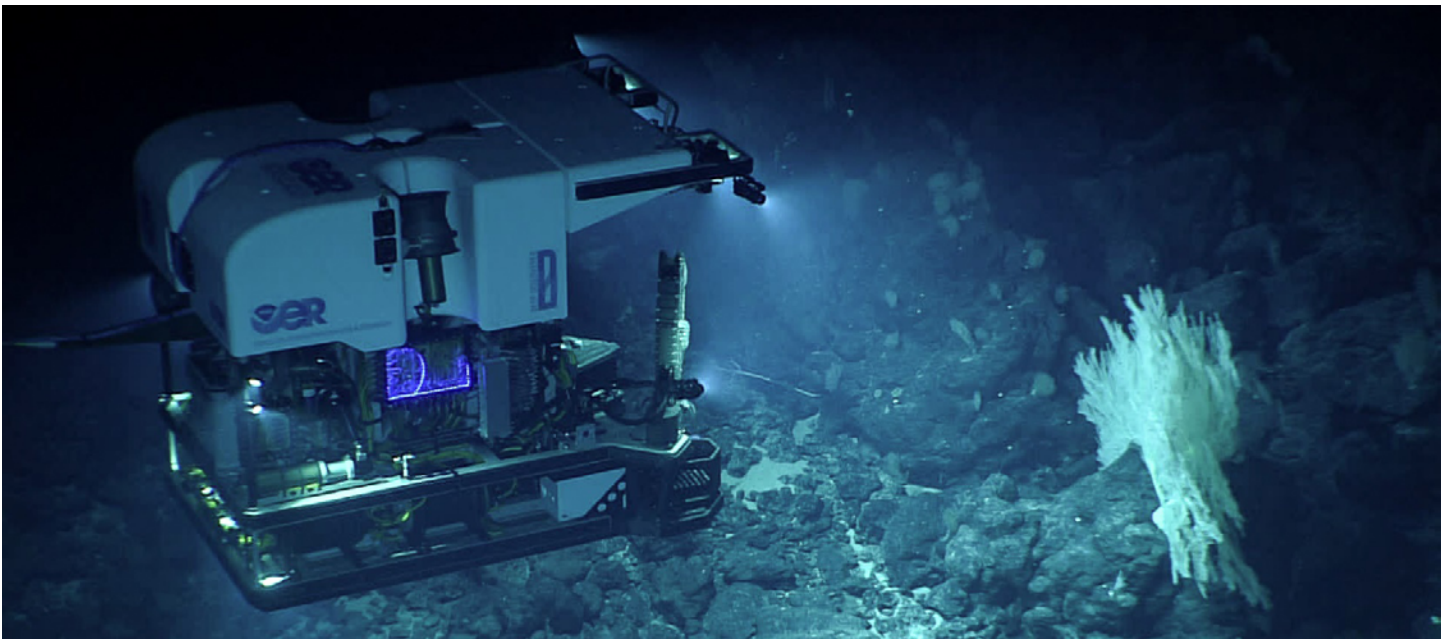

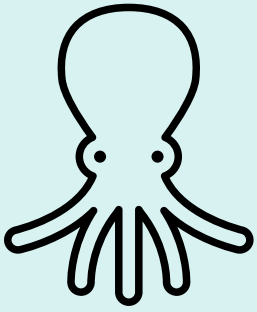

Photo Credit: NOAA

Background Info

New technologies, sensors, and tools are expanding our ability to explore the ocean system. Scientists are relying more and more on satellites, drifters, buoys, subsea observatories, remotely operated vehicles, and manned submersibles.

My Ocean Science Journal

Grades 6 - 8

Weekly Writing Prompt #9

Try This

Imagine you are a scientist who wants to design a machine to study the deep sea. What are some things that would make this difficult? What could you learn about in the deep ocean? Draw your best submersible design!
